Toast		YES					YES				YES			

Important: Our chicken and fries are cooked in **highly refined peanut oil**. While highly refined peanut oil is not considered a major allergen under FDA labeling requirements, guests with peanut allergies should consult their physician and speak with a team member before ordering.

Allergen information is based on our standard menu builds, recipes, and supplier ingredient information available as of July 2026. This information does not account for special requests, substitutions, limited-time items, supplier changes, recipe changes, or cross-contact during preparation.

Angry Chickz Sauce is mayo-based and includes ingredients such as Worcestershire sauce, ketchup, and barbecue sauce; based on standard Worcestershire ingredients, the sauce may contain fish from anchovies, in addition to egg, soy, and mustard.

Our kitchens prepare and handle ingredients that may contain common allergens, including milk, eggs, fish, wheat/gluten, soy, sesame, peanuts, and mustard. Because we use shared cooking and preparation areas, utensils, fryers, and equipment, we cannot guarantee that any menu item is completely free from allergens or cross-contact.

Guests with food allergies or sensitivities should review the allergen information carefully and speak with a team member before ordering.

For additional information or concerns, email us at support@angrychickz.com or visit www.angrychickz.com.
